PREFACE.

Since the presentation of our first volume to the public in the Summer of 1885, the demand for Black Top Spanish Merino Sheep has been beyond the most sanguine expectations of those who were interested in the development of this popular breed of fine wool sheep; and yet during these three years, the sheep and wool industry of the United States has been under that cloud, the reduction of the tariff on wool by Congress in 1883. And at almost every session of Congress since, similar clouds of a more discouraging nature have threatened the sheep and wool industry. Still sheep bred for wool and mutton have been in demand, and the foundation of many new flocks have been laid, while others have only purchased rams and are breeding more in the direction of wool and mutton, or perhaps we might more appropriately say, of mutton and wool. And as those engaged in breeding fine wool sheep, lament the fact that so little care has been exercised in the past to record and preserve the history of our sheep during the past eighty years, we should not spare time nor means to pass down to posterity such evidence as we can collect in regard to the ancestors of the flocks which we breed. And in no other way can this be better accomplished than in the

publication from time to time of volumes of a register of flocks showing their history and pedigrees.

Our second volume has been arranged under the same plan as the first, and in accordance with Rule First of By-Laws no pedigrees have been accepted and published in this volume but those of sheep the sire and dam of which were recorded in Vol. I, and our association in adopting this rule follows the course of a majority of the prominent societies whose object is the publication of the pedigrees of thoroughbred live stock. Indeed, is it not correct that the time has passed when the records should be kept open for the admission of stock from outside the records.

While we have inserted in this volume a reprint of the Constitution and By-Laws and Amendments, we have omitted the general History, and, indeed, the history of the origin of all flocks which were given in Vol. I. However, reference is given by which any one can find their history who may have a copy of Vol. I.

Every pedigree has been carefully examined, not only by the compiler, but, by a committee of the Executive Board, and has received the approval of the said committee.

We are pleased to note that our last Legislature enacted a law to prevent and punish any attempt to obtain any fraudulent pedigrees or fraudulent transfer of the same, and we deem it of sufficient importance to the public to give it a place in this volume.

We are truly thankful to the public for the patronage received in the past, and hope to merit a continuance of the same. Without further remarks we wish to present this our Second Volume to our friends and patrons.

CIRCULAR NO. 1.

WHEREAS, satisfactory arrangements have been made and it has been decided to register for trustworthy and responsible breeders sheep that can be traced in all lines through the flocks of William Berry, deceased, to the celebrated flock of William R. Dickinson, and as the rules now governing this association are not as comprehensive as might be desired, be it therefore

RESOLVED—1st. That a committee of three be chosen to draft suitable rules and regulations in accordance with the spirit and intent of the constitution and by-laws now governing this society, to govern a committee on pedigree.

RESOLVED—2d. That we appoint a committee of three whose duty shall be to meet at the call of the Secretary of this association, to examine carefully under such rules as may be adopted this day or hereafter, any and all evidence submitted to them in regard to the breeding of sheep, and to decide whether they are eligible to be registered in volume first published by this association.

RESOLVED—3d. RESOLVED—4th. That the committee on pedigree be instructed to confer with the Secretary and have printed a circular giving to breeders of Black Top Spanish Merino Sheep, such instructions and suggestions as may be necessary to make application in regard to registering their sheep, and further, to give any necessary aid to the Secretary in preparing blanks for the use of this association and its patrons.

satisfied with the decision of the Examining Committee, there will be an opportunity offered for appeal to the association immediately previous to closing entries for volume first, the decision of the association in all cases to be final.

In accordance with the first resolution a committee of three was appointed, and reported rules to govern the committee on pedigree, which, after slight change were adopted, and on motion were left in the hands of the Secretary and Examining Committee, who were authorized to print them on a four page circular and distribute to all breeders who might apply. In compliance herewith the following circular was issued.

SUGESTIONS AND INSTRUCTIONS TO BREEDERS.

The Secretary and Examining Committee as well as many breeders have been receiving letters of inquiry in regard to how breeders would proceed to have their sheep recorded.

At a meeting of the association held March 19th, 1884, by resolution the Secretary and Examining Committee were instructed to issue this circular and to give information in regard to what will be accepted for register, we print the preamble of the resolutions adopted at the last meeting: whereas, satisfactory arrangements have been made and it has been decided to register for trustworthy and responsible breeders sheep that can be traced in all lines through the flocks of William Berry, deceased, to the celebrated flock of W. R. Dickinson, and as the rules now governing this association are not as comprehensive as might be desired, in accordance with the above preamble and resolutions attached the following rules were unanimously adopted to govern entries for Vol. I.

RULE I. The committee will not examine any sheep until the owner certifies that they are all marked in the ear with metallic tabs having on one side the name or initials of the owner or

breeder; on the other side the flock numbers, and the flock numbers entered in a register kept by the applicant.

All persons having sheep registered by this association agree to submit their private records to a committee at any time on ten days notice, and also to give evidence at any time that they may be called upon to do so in regard to any investigation that may be required by the Executive Board.

RULE II. The owner must at the time of application file with the Secretary, on blanks provided by the association, a short history of his flock, stating from whom the original breeding stock was purchased, as well as a statement of all subsequent purchases; further, a statement of any and all rams used belonging to others and the years they were used in. The above must include all dates as accurate as possible, and must be accompanied by the certificates of the breeders of the foundation of the flock in every case where it is possible to procure them, and must furnish a list on blank form (A) of the sheep he proposes to have registered. All of the above statements must be certified to as in blank forms.

RULE III. It is left discretionary with our Committee on Pedigree whether they visit the flocks of those who may apply or admit them on statements of persons who have but lately purchased sheep from old and responsible breeders. In this case the owner must certify that the sheep presented are the same as described in certificate of the breeder or the progeny of the same.

RULE IV. The Secretary in order to file all statements, certificates and lists of flocks accepted, will furnish to those who may apply suitable blanks as will be seen on page four of this circular, but owners must retain a copy, as the association claim those presented as evidence to be placed on file and will not return any papers to owners or breeders only where such agreement is made with the committee.

RULE V. A committee of three members of the association any two of whom shall be a quorum to transact business, shall examine all applications, and if they think best, visit the flocks of the applicant, and decide whether the sheep are eligible to be registered in Vol. I, and shall be entitled as compensation to two dollars and a half per day each and necessary expenses for time employed, which must in all cases be paid by the applicant at the close of the examination and before the decision is given.

RULE VI. A fee of one dollar will be charged for each sheep registered, and twenty-five cents for each sheep transferred from one owner to another after they have received a register number. All fees must accompany the list of animals to be registered, and in case the sheep are not eligible the money will be returned to the applicant less postage and remittance.

RULE VII. Flock histories of those flocks that have been accepted will be charged two dollars per page, a page not to exceed one hundred and ninety words. The owner can use as many pages as he thinks best. All histories subject to the approval of the Examining Committee and must be prepared ready for the printer. The Secretary is instructed to charge for all work done in preparing flock histories of breeders to the applicants. All wood cuts or electroplates to be worked by the printer will be charged for same as flock history per page. Where lithographs to be bound in Vol. I are furnished they will be charged one dollar per page.

RULE VIII. The Secretary will notify all owners of the acceptance of their flocks by returning one-half of form (A) which they can attach to the original stub. The Secretary will assign all register numbers.

RULE IX. In order to avoid controversy and settle disputes the person owning the ewe or having her leased at the time she is coupled with the ram will be recognized as the breeder of

progeny, and the date of purchase (not the time of shipment), will be considered the date of sale.

RULE X. Should any owner or breeder be dissatisfied with the decision of the Examining Committee he can appeal in person or by letter at a meeting of the association immediately previous to closing entries for Vol. I. The decision of the association in all cases to be final.

The following is printed in accordance with resolutions adopted by the meeting March 19th, 1884.

1st. Any breeder can record the lambs of 1884 if he wishes in Vol. I.

2d. That all entries for Vol. I. must be in by the first day of June, 1884.

3d. That after the publication of Vol. I all stock must trace to recorded sire and dam.

CIRCULAR NO. 2.

Secretary's Office, HOUSTONVILLE, PA., Dec. 24th, 1885.

FIRST.—The first volume of the register published by this association contains the pedigrees of about 2,300 sheep; giving the history of the origin of 68 flocks; giving the breeder, age, sire and dam of each animal, in every case where it was possible for the owner to give the same; the Constitution, By-Laws, Amendments, Rules of Entry, &c., Standard of Excellence with Explanatory Notes, are given, following which is the Introduction to History, and Biographical Sketch of Hon. W. R. Dickinson, and history of the celebrated flock of sheep bred by Mr. Dickinson; also a number of illustrations, among others portraits of W. R. Dickinson and William Berry, deceased, and cut of silver cup awarded Mr. Dickinson at Baltimore in 1826.

To those engaged in breeding this family of sheep there will

be found in this volume much valuable information and interesting reading.

The book contains about 250 pages including cuts, is finely printed in large, clear type, on one hundred pound highly calendered paper, and is bound in cloth, beveled boards, and will be mailed to any address, postpaid, on receipt of \$1.68.

Those whose names appear as breeders in this volume are entitled to the book for 95 cents, postpaid.

SECOND.—Blank form A for returning sheep for record will be furnished in books of twenty-five pages each, and twenty sheep can be returned on each page, on receipt of \$1.00.

Blank form B for returning sheep to be transferred will be furnished in books of twenty-five pages each, and ten sheep can be returned on each page, on receipt of 50 cents. Or we will furnish one book each of forms A and B, postpaid, for \$1.25.

By order of the association no sheep can be accepted or transferred only on blanks furnished by the association.

THIRD.—The following rules were adopted at the last meeting of the association:

For all sheep returned to the Secretary under 18 months from the time they were yearned, a fee of \$1.00 will be charged for each sheep.

For all sheep returned to the Secretary over 18 months from the time they were yearned, a fee of \$1.00 will be charged for each sheep, and the same referred to the Examining Committee, subject to the usual expenses, which must be paid before the sheep will be entered on the register of the association. (This rule will go into effect thirty days from the date of this circular, and only applies to sheep over 18 months old from the time they were yearned until returned to the Secretary.)

FOURTH.—Owners returning sheep for volume second use form A, and will please take notice that they will be required to give

sex, breeder, ear tab number, date when dropped, and *register* number of both dam and sire. In case the sire belongs to others a certified statement of the same should accompany the blanks, signed by the owner of the sire.

FIFTH.—Owners in returning sheep to be transferred use form B, and in no case where the animal has been assigned a register number omit to give it in the proper column, as it is much easier to be found than when only the ear tab number is given, and in some instances there are duplicate numbers in the same flock, but the sheep were bred by different persons.

No sheep can be transferred until they have been accepted for registry. In returning sheep for registry and transfer always give names, postoffice, state and county in full, and plainly written.

All sales of registered sheep must be reported to the Secretary within thirty days after date of sale whether they are to be transferred or not. No charges will be made where they are not to be transferred.

Rule VI of By-Laws in Vol. I reads as follows:

It shall be the duty of all members or breeders having sheep recorded in the register of the association, to report all deaths of recorded sheep, giving ear tab number, to the Secretary on or before the first of January of each year, which report shall be entered on the records of the association and published in the following volume.

SIXTH.—As soon as possible after receiving transfers the Secretary will return one-half of form B, duly receipted to the seller, and will mail the purchaser a certificate of transfer. Should an error be discovered by either seller or purchaser the Secretary will consider it a favor to be apprised at once of the same.

In filling up blanks always use ink.

SEVENTH.—The second volume will be issued as soon as suffi-

cient pedigrees have been accepted to warrant the association to do so. No doubt but this question will be decided at the next annual meeting. The Constitution requires the annual meeting to be held on the first [changed by amendment to third] Wednesday in January each year.

EIGHTH.—Patrons will bear in mind that the association will not be held responsible for money unless sent by express, draft on New York, or postoffice order on Canonsburg, Pa., payable to the order of the Secretary.

All books, blanks, etc., after leaving the office of the Secretary are at purchasers risk unless 10 cents additional be sent to have the package registered.

For any and all information in regard to the association send to the Secretary.

W. G. BERRY.

We still have a supply of copies of Volume I, and they will be mailed to order to those whose names appear as breeders in said volume for ninety-five cents, and to all others for \$1.65, postpaid.

Books of Form A, containing 25 pages on which 500 sheep can be returned, will be mailed to any address on receipt of \$1.00.

Books of Form B, for transferring sheep of 25 pages each, and ten sheep can be returned to the page, will be mailed to any address on receipt of 50 cents, or one book of Form A and one book of B will be mailed both to the same address for \$1.25. No sheep will be accepted only on blank forms furnished by the Association.

When any owner or breeder sells ewes that are in lamb, and bred previous to date of sale, they should in every case give the purchaser a certified statement, giving the number of the ram to which each ewe has been bred, that he can forward the same with the pedigree of the lamb to the Secretary.

Again, where any owner or breeder uses rams belonging to others, he should forward a certificate of the same to the Secretary at the time of returning the lambs.

As it is absolutely necessary that the Executive Board has complete evidence on both the above points before they will approve pedigrees for any volume, and as these two questions have caused the Secretary more trouble than any other point, we would urge you to give it your careful consideration when making returns of lambs.

It is not the duty of the Secretary to furnish the numbers of sheep registered, nor will he do so, as it is presumed and is the duty of each and every breeder to keep a private record of the

sheep owned or bred by him, and when any person makes a purchase of sheep he should insist that the seller give him not only the ear-tab number but the register number, age of each sheep and the number of the volume in which they are registered, or for which they have been accepted.

Send all money, except for annual dues of members, to W. G. Berry, Secretary, Houstonville, Pa., by express or postoffice order on Canonsburg, Pa., or by bank draft. Money sent otherwise will be at sender's risk.

By Order of the Association,

W. G. BERRY, Sec'y.

RESOLUTIONS.

[Reference was made in the preface to this volume to the influence of the changes of the tariff on wools by the enactment of the rate of 1883, and perhaps no other single thing has been so detrimental to the wool growing and sheep breeding interests as the changes caused by the enactment of the present rate, and the abuses caused by undervaluation and unjust discrimination. At our annual meeting held on January 19th, 1888, it was thought best that in common with the general feeling of wool growers, as expressed by the resolutions adopted from time to time, that our association should put themselves on record as protesting most emphatically against the reduction and the abuses as practiced under its provisions. Hence the following preamble and resolutions were proposed and adopted, and we give them place as expressive of the views of the members on the subject.]

WHEREAS, For the last five years just past wool growing, and as a result the sheep breeding interest, has been under a cloud, and to a great degree caused by adverse legislation and the enactment of the tariff rate of 1883 on wools, and by the unfaithful carrying out of the law as enacted, in unjust classification and undervaluation, and that the above cited evils not only injure the persons who are engaged in wool growing exclusively but is detrimental to the interests of the owners of stud flocks and breeders of registered sheep of all classes; therefore

RESOLVED—1st. That we as sheep breeders and wool growers consider our industry one of the foremost in the Ohio Valley, and that anything that would lessen the interest in the flock industry would be a serious hindrance to our farming interests, and would cause both direct and indirect depreciation of the value of our farms in this and adjoining counties.

SECOND.—We will resent to our utmost any scheme by which the farmers of the United States engaged in growing wool shall be compelled by the free trade element to compete with and stand on a level in the markets of the country with wool grown by nations only semi-civilized, and deny the claim that such wool has the value of wool grown under the supervision of men who have given a lifetime of study to the business of breeding sheep and growing wool, and with climate, soil and other natural advantages in our favor why should we not furnish as the finished product of our farms the best as well as the cheapest wool (quality considered) that is grown in the world to-day to manufacturers who we considered our friends, and should stand with us to oppose free wool.

THIRD.—That we read with pleasure of the sympathetic feeling of brother farmers who are engaged in other agricultural industries, as expressed in resolutions adopted all through this great nation since this question has been brought before the people, and for the reason that every farmer who abandons wool growing as an avocation will join the ranks of some other pursuit, and in time will cause an overproduction of many of the products of the country and leave the clothing of the people engaged in mining and manufacturing industries of the country to be provided by foreigners.

FOURTH.—That while we are not altogether surprised we are amazed that the Chief Executive of a nation such as the United States should stoop to single out any one industry, and that

almost inseparably connected with the agricultural development of the country, and ask Congress to sweep away what protection we have at present. This we denounce as unstatesmanlike and uncalled for, and if as we might imagine was done for political prestige, we pray to be delivered from such demagogism, and if on the other hand it is the candid expression of the man, and he will, if in his power, carry out these sentiments, then we denounce him as unfit to represent this great nation.

FIFTH.—That any man or class of men who at stated intervals through the medium of the press, proclaim "peace be still" to the farmer and wool grower, saying you are better paid now for your wool as a product of your farm than those who were in the same business forty years ago, when wool sold for twenty-eight cents, and the average clip of the county was not over three pounds to the sheep. But for a moment consider the cost of bran, grain, hay, etc., at that time. Look also, if you please, at the labor and capital that has been expended to bring the yield per head of wool to almost double what it was forty years ago, and we would judge that such men have been for all these forty years in the harness steadily pulling for free trade and fighting the enemy, *namely*, the farmer and wool grower.

SIXTH.—That we feel elated over the result of the conference just adjourned at our national Capital, that of the woolen manufacturers in joint conference with the wool dealers and wool growers, and of their being able to formulate a plan on which they could agree, and as representing a capital of \$600,000,000 and something like 2,000,000 employes, their demands are not to be treated only as meaningless, but will be heeded by those who are representing us in the halls of legislation; they realizing that should they dare to disregard our interests we can replace them by men who will care for the industry with which we stand connected.

SEVENTH.—That wool growers should respond to the appeal of men who have given the subject close investigation, and give of their means to have some one represent them at all times at our national Capital, and at our ports of entry and give their interests his personal attention. Looking as to the probability of legislation adverse or otherwise to their interests; seeing that the tariff laws are not being violated either by improper classification or that imported wools and woolens are not being undervalued. These things need their attention, and the appeal should be and must be heard by wool growers throughout the land.

EIGHTH.—That wool growers and breeders of fine sheep should vote for men who believe in protection as a principle, who think that the American farmer should grow the wool and that it should be manufactured by an American, and should be used by those who are engaged in the mining and manufacturing interests of the United States. We ask you to demand a fair and just representation at all times, such as the dignity of your calling demands.
